Keane Enterprises Pursues Sustainability *LEED expert on staff*

Ashburn, VA – Keane Enterprises is committed to best practices in their daily work efforts. Recently, Derek Lowe, construction manager for Keane Enterprises as well as lead executive for Keane Construction, became a LEED accredited professional. Mr. Lowe participated in the U.S. Green Building Council’s LEED for Interiors program and successfully completed the course and exam requirements in October. He will steward the LEED initiative through planning and development stages for Keane projects ensuring we continue to develop the best for our customers and clients.

“Keane is focused on sustainable building practices,” said Brian Cullen, president of Keane Enterprises. “We have a passion for creating high quality developments and feel equally passionate about protecting the environment for today and for our kids.”

The LEED Professional Accreditation program is administered by the Green Building Certification Institute with support of the U.S. Green Building Council. LEED Accredited Professionals (LEED APs) have demonstrated a thorough understanding of green building practices and principles and the LEED Rating System. More than 43,000 people have earned the credential since the Professional Accreditation program was launched in 2001.

Keane Enterprises is a full-service real estate development company and service provider in the Washington, DC metro area. Brian Cullen is the founder and president of Keane Enterprises and has played an instrumental role in the development of major real estate projects in Northern Virginia including Loudoun County over the past 23 years. Cullen serves as chairman of the Urban Land Institute, Washington District Council and the Dulles Town Center Community Development Authority.
